

General Safety Layout of the Pickle Farm Flying Site

Safety Rules

The location is Deverill Road Trading Estate, Sutton Veny BA12 7BZ
Cars/Pits are normally at **B**. **A** is only used in Easterly winds.
Individuals are responsible for ensuring that their flight is safe to undertake.
Report safety issues to a Committee member.
Frequency control is achieved through the use of a “peg on” system.
The peg board is to be located beside the active pits area.
In both parking areas, cars are to be reversed from the track onto the grass ensuring enough room is left for other vehicles to pass in front.
Pits are to be set up behind vehicles in the no fly zone.
The no fly zone includes all buildings.
Location of flight lines is limited to those shown. Beware of the sun.
Maintain a lookout for low flying aircraft, especially military on weekdays.
Maintain a lookout for walkers on the footpath in the northerly adjacent field

Site Rules

Access the site using the route shown in the site plan.
Use gates/stiles when retrieving models.
Do not annoy our neighbours with noisy aircraft, especially at weekends
To reduce potential noise nuisance, fly to the South of the site.
Keep all gates shut even if there are no sheep in our field.
